THE SCULPTURE GARDEN

Hidden at the end of a cinematic drive through the vineyard, this private yet expansive 25-acre field is among the most extraordinary places on the East End.

Surrounded on all sides by mature trees and vineyards — and lightly adorned with whimsical wooden sculptures made by our founder, Walter Channing — it offers a stunning and memorable setting for any celebration.

There is a special majesty to this space that cannot be adequately communicated in photographs. The enormous scope of the landscape, the abundance of light and the vast open sky are uncommonly peaceful and transporting.

You wont find anything else like it.

WINE

Private events hosted at Channing Daughters are required to serve Channing Daughters wines exclusively.

Luckily, they are delicious.

We produce a wide array of styles from crisp mineral-driven rosés and dry, aromatic whites to deep, expressive reds and light, delightful sparkling wines.

All of our wines are made from sustainably farmed grapes that are hand-picked and fermented with an abundance of care and attention in small batches.

The best way to get to know our wines — and select which will work best for your event — is to stop by for a tasting.
